

DINAMIC^{OR}

YOUR TABLE | YOUR WAY

NOW AVAILABLE: 2021 Advantage Program

Finally, a Customizable Back Table Solution that will Streamline Your OR.

Eliminate OR Workflow Overwhelm

Things move quickly in an OR. So when workflow isn't consistent, not only does it slow things down, but the work itself can suffer. With the Dinamic OR Back Table Solution, operating room staff are no longer frustrated with inconsistent setup protocol. As such, it will effectively reduce anxiety, increase efficiencies, and renew job satisfaction.

1 Workflow Management App

Establish a logical, sequential, and efficient setup for each surgeon and procedure. Staff are guided through tray placement setup for perfect repetitive environments.

2 Adjustable Back Table

Multi-level shelving means no more stacked trays. Access every instrument with no extra tray lifts.

3 Durable Drape

No tears, no "double-draping," no safety concerns. The custom fitted drape is numbered to assist staff in tray placements.

DinamicOR Details:

-  Limited number of centers offered for 2021
-  Minimum commitment of 250 procedures annually per table
-  Includes a Triple Wide and a Double Wide Table (two table minimum)
-  Virtual onboarding
