

# OR<sup>+</sup>

## Meet the DinamicOR+ Workflow Management App

Map your preferred tray layouts for any procedure and then repeat them as needed. This app allows the surgical team to find the instruments they need exactly **where** and **when** they need them.

...Because **Every Second** Counts in the OR

- Keep staff a step ahead to improve workflow process
- View technique guides and animations to learn more about surgical steps
- Easily on-board and train staff
- Accurate instrument layouts and a database for reference
- Transferable knowledge: document your workflows for anyone to easily replicate
- Share your guides with all your Operating Rooms
- Digitize your notes and hand-drawn diagrams to keep everything in one place
